1 Introduction

1.1 Citing

In this template you have to insert all your references in a special file called "bibliography.bib". It should be inserted in a special BibTex format. It can be found easily via google scholar -> quotation sign -> BibTex. You can find how it looks in ".bib" file.

After you have inserted your BibTex citation into the ".bib" file, you can cite it in this document using Vaswani et al. 2017.

1.2 Graphs

Graph 1.1 is useless.
